

Job profile (level 3 EQF = entry level)

Cellar assistant

Job description

The cellar assistant performs the specific tasks necessary for the production, packaging and selling of wines in a winery (from grape delivery to wine personal selling) under the supervision of a wine maker and/or a team coordinator.

The working environment

1/ Security: The wrong use of oenological products and machinery could damage human health and cause security hazard, so they must be used according to the required terms and conditions, respecting work and security instructions, according to national regulations.

2/ Location: The tasks are performed mainly in the wine cellar, but also in the company shop or at external events such as wine fairs.

3/ Seasonality: Tasks are submitted to specific schedules:

- Seasonal, with a peak period in the autumn, during harvest time, and in winter during the wine making process and wine ageing.
- Yearly, regarding the packaging and personal selling of products: selling at the estate, at fairs, to wine merchants, sommellerie, ...

Skills blocks

This job profile is composed of 3 units of learning outcomes (ULO) that include the following activities:

- ULO1. Wine production
- ULO2. Wine Packaging
- ULO3. Wine selling
